BRITISH DEVOLUTION.

IN THE CONFERENCE DISCUSSING!

LABOUR PARTY ANGRY.

A WAY TO IMPERIAL FEDERATION.

LONDON, Oct. 17. There is much speculation on public platforms and in newspapers as to the progress of the Constitution Conference.

Mr. G. N. Barnes, M.P., chairman of the Labour party at Bradford, said that the very existence of the conference was a negation of democracy, as it was discussing a question which was settled beyond doubt in January last. The sooner the conference was over the better.

The Osborne Judgment has made the House of Commons a present to the rich. The experience of America has proved that payment to members does not secure representation of the working class. Payment of members must be accompanied by the power to form political organisations.

THE WALTHAMSTOW ELECTION.

PRESSURE ON THE GOVERNMENT.

A conference of trade unions and socialists at Walthamstow has resolved that unless Mr. J. A. Simon, the Solicitor-General, who is seeking re-election, will pledge the Government to give trade-unions absolute control of their own funds for Parliamentary purposes, they will fight him.

The conference controls 2000 votes. The magistrate was absent when the explosion occurred.

BOILERMAKERS' BALLOT.

OBJECTIONS TO PENALTIES.

PRESSURE OF FINANCES.

LONDON, Oct. 17. Anxiety is expressed on the Clyde and the north-east coast of England as to the result of the ballot of the boilermakers in the agreement concluded by their representatives with their employers.

Many boilermakers are strongly opposed to the acceptance of the clauses penalising those members of the union who go out on strike before constitutional means for effecting a settlement have been tried, and the opposition is expressed, notwithstanding that provision for similar penalties is made in the rules of the Boilermakers' Society.

Probably the financial position of the society will force the majority of members to accept the agreement.

FERRER DEMONSTRATIONS.

MASS MEETING AT ROME.

RIOTS IN MADRID.

LONDON, Oct. 17. A demonstration to mark the anniversary of the execution of Ferrer at Barcelona, and the establishment of the Portuguese Republic, was held in the Plaza del Camp de Piatre at Rome yesterday. Ten thousand spectators attended the demonstration.

Roman Catholics and Republicans came into collision at Madrid on Sunday, following on Ferrer demonstrations, and the contest was so riotous that the Municipal Guards were forced to charge the mob.

Nearer East Policy.

AUSTRIA'S RELATIONS WITH RUSSIA.

LONDON, Oct. 17. The Austro-Hungarian Ministry of Foreign Affairs is seeking to the difficulties with Russia.

Count von Aehrenthal, the Foreign Minister, in addressing the Austrian Delegation, said he hoped that the feeling of annoyance with Russia, aroused over the opposition of the latter to the annexation of Bosnia, was a thing of the past. There was no fundamental difference between the policies of Austria-Hungary and Russia regarding the East.

IMPERIAL PIONEERS.

LONDON, Oct. 16. The Imperial Pioneers, including Captain Sir William Russell, Mr. Tempier, of New Zealand, and Captain Pounds, have held meetings in Yorkshire, which were well attended.

A campaign has been arranged in North Wales, the West of Scotland, Lancashire, Midland, and London.

UNEMPLOYED TEACHERS.

LONDON, Oct. 16. The London County Council has reversed the decision it arrived at declining to order the reduction of all classes in its schools to 90, and so employ teachers who are now unemployed.

A strike was easy to the county, but the whole of the court, including the Queen's Bench, was adjourned.

The London County Council is receiving offers of help from various training colleges all over the kingdom who are helping in placing their students.

ANTI-PATRIOTIC PROPAGANDA.

SPANISH PREMIER'S DENUNCIATION.

LONDON, Oct. 16. The Spanish Premier, speaking in the Chamber of Deputies at Madrid, denounced the anti-patriotic propaganda which was being carried on in military barracks.

ISSUE OF GERMAN CAPITAL.

LONDON, Oct. 17. New issues of capital in Germany for nine months of the year amounted to £2,000,000.

According to the "Economist" in the nine months ended September 30 British issues of capital amounted to £16,700,000.

FUNDS OF LABOUR.

EFFECT OF POLITICAL BAN.

A PARLIAMENT OF RICH MEN.

LONDON, Oct. 17.

The Labour party in its manifesto, which is entitled "How the Osborne Judgment Dooms Trade-unionism," says: "The rich can draw cheques for thousands of pounds to finance their political friends, but it is illegal for combined labour to help the poor by means of combined funds, which is the only way their copperas can be made as effective as cheques."

The Osborne Judgment has made the House of Commons a present to the rich. The experience of America has proved that payment to members does not secure representation of the working class. Payment of members must be accompanied by the power to form political organisations."

which call for every human being to be alive to the questions of the day. These same men forget that the women whose thoughts are directed to the welfare of their homes, such as overhauling attention to their home or family ties that they should be dissuaded from taking an interest in those larger questions. The will live in the root of good government lies first and foremost in the training of honest, upright, and patriotic citizens.

Every human is honestly taking an interest in the welfare of her country, who does avail herself of the opportunity of saying what she thinks. Good government is the only country to have, will also assuredly be one who, regarding life from a larger standpoint, from a wider horizon, will do her best for her country, and for the nation in her selection of its politicians.

I am, etc., M.D.H.

COMPLETE ANALYSIS OF VOTING.

Following is a complete analysis of the voting, based on the results of the returns from the State. The returning officers, which are cause for the variation, are included in the grand total, are unaltered:

LOCAL OPTION VOTE.

NO "DRY" DISTRICTS.

There are to be no "dry" districts apparently, as a result of the local option vote. Continuance in the great majority, and reduction in some electorates—that is the effect of the vote. In a few electorates the fight was very close one, and there was a narrow escape from no-license.

THE ALLIANCE DISAPPOINTED.

Lithgow was the only large centre in the Hunter electorate which did not return a majority for no-license. Continuance has been carried, and the result is disappointing to members of the Alliance, who expected to at least carry reduction.

The local option returns are still incomplete, but far the result is largely in favour of continuance. The poll was taken out, and the liquor question being fought out by the political parties on both sides.

THE MOREE TRAGEDY.

ACCUSED ACQUITTED.

GRAFTON. Monday.

The local option returns are still incomplete, but far the result is largely in favour of continuance. The poll was taken out, and the liquor question being fought out by the political parties on both sides.

In 6d. However, that Australia ought to be able to borrow at 3 per cent. is a palpable fallacy in Australia, and I have found it is not sustainable by leading financiers in London. The Commonwealth's credit is high due to the knowledge that its total interest bill is only £1,000,000,000, or 18 per cent. of its total revenue £5,44,478,000. A 3d per cent. cap for all the States. Australia would not fulfil its interest bill burlesquely even though its debt were £100,000,000 more. The country is not so prosperous and is lightly taxed that its debt and interest charges are not so heavy. Even if they grew too fast the productivity of the country is so resilient and expansive that we could afford to pay 3d for our debts. The character of the Australian debt is best understood when the object for which it has been borrowed are stated. The debt has been borrowed to expand the economy instead of only £250,000,000.
